**Advantages:**

**HRDROSTATIC POWER STEERING SYSTEM**

H&f05 forklifts are equipped with a hydrostatic power steering steering system that works to reduce steering effort and

lessen fatigue over long hours of operation. Completely hydraulic in design with no mechanical linkages, the smooth operation of this system helps to eliminate kickback and oversteer characteristics.

### Non-slip floor and step

The wide-open step is not only convenient to use but safer thanks to anti-slip mats. To further improve safety in demanding work conditions, the floor board is constructed of embossed steel to reduce of possibility of slipping.
